Full set assembled and safety wire on

Clamp / rubber mount / bracket

*Assembly as per
picture, and tight
clamp bolts*

Insert the manifold (part # 3)
inside exahsut pipe (part # 5)
until stopping point

- ✓ Place the manifold clamp (part # 4)
- ✓ Place the clamp next to the intersection manifold/ exhaust pipe in order to hold the assembly correctly
- ✓ Tight the clamp bolts at 1,3 kg.

As simply as this
